

KERA-DIET®

Introduction:

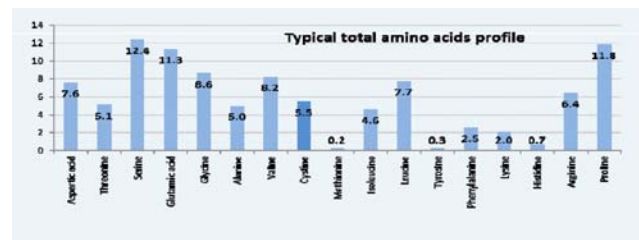

Kera-Diet is a food grade keratin hydrolysate, containing natural L-amino acids, extracted from an allowed and controlled source of keratin, in a registered plant.

Benefits and Advantages:

Improves hair and nails conditions: brightness, volume, density, growth, and vitality. Boosts keratinocytes endogenous Glutathione production. Traced origin, from a sustainable protein source. Stable and unique profile of 17 amino acids, 86,5% in free form. Instant assimilation due to a very low molecular weight (100% < 800 Daltons).

Composition:

Items	Results
Dry matter	98.7%
Total amino acids (CE 152/2009)	88.4%
Included L-Cystine	≥ 5.0%
Crude ashes	7.5%
pH	4 - 6

Suggested dose: 300 to 1000 mg per day.

Adapted to the following galenic form: hard capsules.
